3D DESIGNER · BLENDER GENERALIST

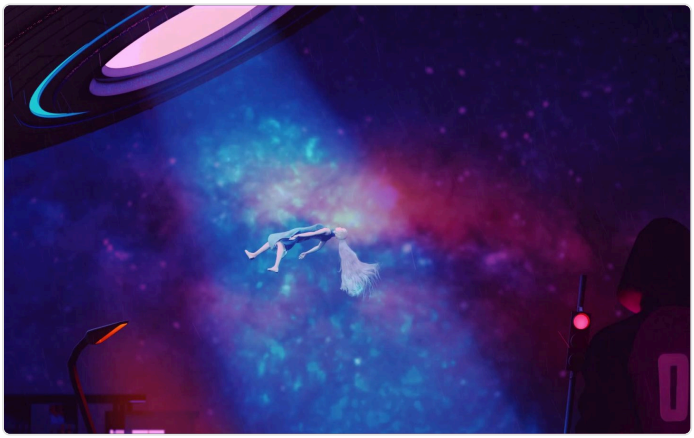

I build *worlds* in Blender.

Product visualisation, stylised characters, and full environments — modelled, textured, lit, and rendered end to end.

BASED IN	WORKING
Bangalore, India	Remote, worldwide
PIPELINE	STATUS
Blender 4.x · Cycles / EEVEE	Open for contracts

Selected work

A short selection of personal and client pieces.

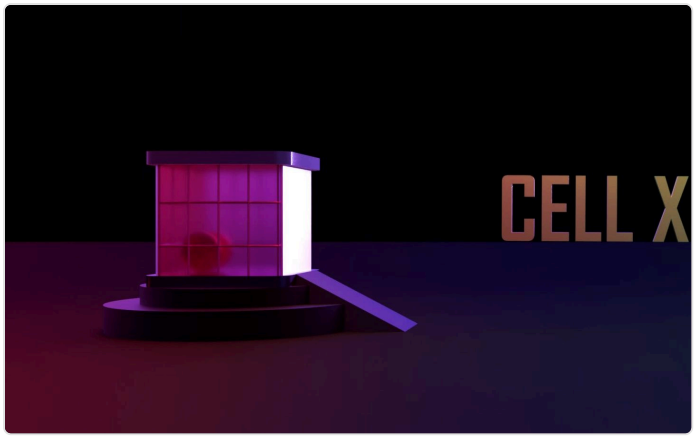

01 Zero-G Drift

Character · Cycles

02 Red Room

Motion · Simulation

03 Cell X

Product · EEVEE

04 Framed

Character · 4K

05 Signal

Motion · Experimental

06 Globe Study

Product · Stills

07 Porch Light

Environment · Archviz

About

I'm Pavan, a 3D designer working primarily in Blender. I take a piece from blockout to final frame: modelling, UV layout, PBR texturing, lighting, and compositing.

Most of my work sits between product and character — clean studio setups for objects, and stylised, readable shapes for characters and props. I also handle motion and edit, so a still can become a short loop or a full spot without leaving the pipeline.

FOCUS	Product visualisation · Characters · Environments	TOOLS	Blender · Photoshop · Illustrator · After Effects · Premiere Pro · DaVinci Resolve
DELIVERY	Stills · Turntables · Short-form video	ENGAGEMENT	Contract, remote · Fixed scope or hourly

What I do

01

Product visualisation

Studio-lit stills of objects, built from CAD or reference, with clean topology and physically based materials.

02

Character & prop modelling

Stylised and semi-realistic builds, retopology, and game-ready UVs.

03

Environment assembly

Layout, set dressing, lighting, and atmosphere for a complete frame.

04

Motion & edit

Turntables, camera moves, and short edits delivered to spec.
